

Application for Letter of Support

Description

The arts are an intrinsic expression of life. Thriving communities enjoy shared experiences of diverse and abundant arts and culture. Arts investments create jobs, leverage private gifts, build a sense of place, invite tourism, revitalize neighborhoods, attract creative people, cultivate democracy, preserve cultural legacy, generate local tax revenue, and enhance our quality of life. The Green Bay Public Arts Commission (GBPAC) promotes the culture and identity of Green Bay through support of the visual and performing arts, and the humanities. GBPAC funds exhibitions, artistic activities, installations and cultural programs.

The GBPAC defines public art as any art readily available for public viewing, without any barrier to entry. Public art may be placed on public or private property.

The GBPAC will write letters of support for project that align with its mission and purpose. A letter of support is not a financial commitment.

Project Description

Felix the Fox
Mural
Finished before Fall of 2017 - Approx. working time: 2-3 days.
Date piece will be deaccessioned (if applicable) N/A
Project description (less than 200 words, include photos)

In an effort to increase public art within the arts district, this proposal is intended to fill an empty and often overlooked spot and area and fill it with something to generate a conversation - this one being in reference to the Fox River and how we should as a community, we should see it as a link rather than a separating landmark. A unified East and West, brought together through this resource that has made our area thrive for years and years and is now being developed into a thriving downtown area.
